## MESSAGE FROM CHAIRMAN

Major S. K. Sharma (Retd)  
Chairman

As the sun set for the last time in the western horizon for the year 2019, I looked back to reminisce how my company had fared in the most demanding conditions our industry has been through. Honestly, I think we did splendidly well with the support of my dedicated team of officers in every corner of the country.

There has been major reshuffle at the top level of my crack team and I am happy to say they delivered far beyond my expectations. I am now confident that SISA will dominate the security services industry in 2020, fulfilling a long cherished dream.

I had carefully drawn a road map for achieving a dream target in terms of business growth for 2020. I hereby announce on this first day of January, two thousand twenty, that SISA is poised to surpass my own expectations in business accumulation, service quality and delivery. It is therefore upon my brave soldiers to rise to the occasion and ensure that our brand value gets the diamond edge and sustains the same for many years to come.

I consider all SISATARIANS as the company's biggest assets. I draw strength from your astute sincerity, dedication and above all loyalty towards my company. Only your hard work can ensure that the year 2020 will be written in golden letters in the history of SISA. So rise and give your best.

My family joins me in wishing each one of you a momentous NEW YEAR. God bless you all.

**Maj. Sushil Kumar Sharma (Retd)**

**Chairman**

### Happiness is a decision happiness is choice

The reason why there is so little happiness in the world is dependency. Happiness is not dependent on "anything" or "anyone" or found "anywhere". Happiness is not dependent on physical objects. Objects, possessions, gadgets, etc., are designed to give us comfort. Physical comfort is different from emotional comfort. We keep delaying our happiness until things are just right in our life. We think we will be happy in the future and then wonder why we are not happy now.

If we believe that happiness is experiences after achievement, then we create stress, anger and fear while trying to achieve it. Thus, we ultimately do not experience happiness. Happiness is our internal creation and can be created irrespective of external comforts. We use objects as a stimulus to create a response, but the response is our choice. Different people create different responses using the same stimulus.

Happiness is only possible when we are able to accept everyone as they are, at every moment, in every situation. That means an end to judging or resisting other, an end to complaining and blaming, an end to criticizing and controlling and an end to competing with anyone. No one is responsible for my hurt, pain, fear or anger. It is my own creation in response to their behavior and I have another choice. The choice is to be happy. While working towards our achievements, if we take care not to compromise on our values of peace, love and happiness, we will always be contented.

Before I take responsibility of those around me, I need to take responsibility for my own thinking and feelings. When I am happy and take care of others, then they will be happy. You cannot make your child strong without being emotionally strong yourself. Happiness is not something that we should expect to get from other people- it is to be created within and shared with people we meet.

## ARTICLE BY SUPPORT TEAM

Happiness means the awakening and acceptance of self-responsibility. Problems will come, challenges will be there, but to despair or deal with them is our choice. It is only when we choose thoughts and feelings that are aligned with our true nature of purity, peace and love that we can shift- from asking to sharing, from holding on to letting go, from expectation to acceptance, from past and the future to being in the now. We can create a life of joy, contentment and bliss, because we have the choice and the power.

Happiness is a decision.
